STREET AND STORMWATER DEPARTMENT REPORT FOR THE MONTH OF MARCH, 2013

1. **STORMWATER PERMIT ACTIVITIES**

- Stormwater Program Manager training of Street Tech 1 to assist with construction site inspections for Rule 5 and Stormwater Ordinance compliance.
- Routine inspections of twenty one (21) Rule 5-permitted construction sites were conducted last month.
- Reviewed Stormwater Pollution Prevention Plans for three (3) new development projects.
 - Issued local Stormwater Permit approval for three (3) projects.
- Collaborating with Zion Nature Center and Myrene's Garden to hold a rain garden workshop at the Zionsville Town Hall on April 16, 2013. The workshop helps satisfy NPDES permit requirements for public education and participation.
- Collaborating with Zion Nature Center, Eagle Creek Watershed Alliance and Lions Club to hold a Hoosier Riverwatch Basic Training at Lions Club Park on May 11, 2013. The training helps satisfy NPDES permit requirements for public education and participation.

2. **STORMWATER MANAGEMENT BOARD**

No Board activity.

3. **FIRST STREET PROJECT**

Meetings between the design consultant and approximately nine (9) additional property/business owners are on-going. At least eight (8) meetings have occurred with seven (7) property owners or their assigns. Upon completion of this series of meetings, an additional public meeting will be scheduled to present the final design development plans.

A project web site has been developed for this project, and the layout may be viewed at www.reasite.com/firststreet/. Revisions to this project are forthcoming.

4. **Road Impact Fee Update**

The committee met February 21 to review the future traffic demand models generated by A&F Engineering. The purpose of this review was to evaluate the proposed intersection and road segment capacity increases that are anticipated to be necessary within the next ten years to maintain acceptable levels of service. Those members in attendance reviewed the proposed

intersection and road segment expansions for possible inclusion in the traffic impact fee calculation. The committee decided that further consideration was warranted, made no decisions, but agreed to make recommendations at the next scheduled meeting.

5. SYCAMORE STREET PATHWAY EXTENSION

A preliminary route/design has been developed by the Town Engineer utilizing a retaining wall system to connect the existing pathway terminating at the entrance into Lions Park and extending it generally along Sycamore Street west to Elm Street. The use of a retaining wall with handrail is more cost-effective than the alternate design using a boardwalk system. Final design is being completed by the Town Engineer, with construction planned for this fall.

6. OAK STREET SPEED LIMIT STUDY

This study has been completed and is an agenda item for consideration at the April 8th meeting of the Town Council to reduce the speed limits along the western reaches of Oak Street from 55 mph and 50 mph to 45 mph per the recommendation of the Zionsville Safety Board.

7. ANNUAL HEAVY TRASH COLLECTION

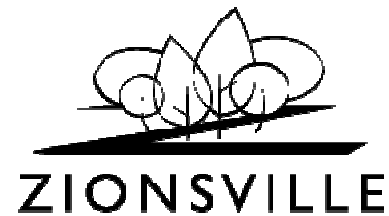

The annual collection of heavy trash items for Zionsville residents in the urban service district, including those areas recently transitioned, has been set for the week of April 29th. This is an opportunity for residents to dispose of non-hazardous household items that are not normally collected with their weekly trash service. Collection will again be on residents' regular trash day during this week. Information and details have been posted on the Town's web site and will be advertised in the Times Sentinel, and people may contact the Street and Stormwater Department directly for this information as well.

Several years ago an appliance recycling company began to participate in this service which resulted in the removal of any expense to residents for the disposal of refrigerant-bearing appliances. Several other items traditionally sent to landfills were also included in the recycling initiative, which reduced the contract expenses with Ray's Trash Service. Unfortunately, due to lower than expected quantities of said items, this company can no longer justify the time and expense of door-to-door collection of these items at no charge. To mitigate this change, Street Department personnel will collect recyclable items from curb-side and transport them to a semi-trailer located behind Town Hall. There will therefore be no obvious change to the service noticed by the public.

8. 2013 BRUSH AND LIMB COLLECTION

The spring round of brush and limb collection for Zionsville residents in the urban district, including those areas recently transitioned, has been scheduled for the weeks of April 15th and April 22nd. The specific schedule has been posted to the Town's web site and will be advertised in the Times Sentinel. Residents may contact the Street and Stormwater Department for their specific day of collection, and the schedule is attached to this report.

PUBLIC NOTICE

Spring 2013 Brush & Limb Collection

The Town of Zionsville's Street & Stormwater Department will be providing curbside Brush & Limb Collection **beginning Monday, April 15, 2013**. This service provides Zionsville residents in the Urban district a means to dispose of certain Spring pruning and yard debris. We cannot guarantee the collection unless your items are out curbside by 7:30 a.m. on your designated pick-up day.

Limit on size is 6 inches in diameter. Grass clippings, leaves, decorative grass, vines, stumps, root balls, construction lumber, firewood, and wooden fencing material will NOT be collected. Bundling is not required. Limbs up to 6 inches in diameter may be left intact but should be no larger than can be managed by one person.

Monday April 15	Village Area (all) and Starkey Ave.
Tuesday April 16	Sugarbush Hill, Fox Hollow, Woodlands at Irishmans Run, Hunt Club Rd., Clifden Pond, Hunt Club Village, Olde Dominion, Ford Rd.
